_____, fully supports the work of XX Coalition and its efforts to reduce substance abuse to make the community healthier and safer.

Community coalitions-more than any other entity-are poised to connect multiple sectors of the community, including businesses, parents, media, law enforcement, schools, faith organizations, health providers, social service agencies, and the government. By acting in concert to gain a more complete understanding of the community's problems, coalition partners organize and develop plans and programs to coordinate their anti-drug efforts. The result is a comprehensive, communitywide approach to substance abuse and its related problems.

Paragraph of signing organization or association.

We join other organizations in this cooperative effort to build and strengthen the capacity of community coalitions to create safe, healthy and drug-free communities.

To support this effort, we will:

1. Incorporate information about XX Coalition in our organization's newsletters, blast e-mails, and/or other communications.
2. Encourage staff and/or customers to participate in coalition efforts to address community problems.
